

Client: Ability Options
Location: Seven Hills
Time Scale: 6 Weeks
Area: 405 m²

Client Profile:

Ability Options provide services focusing on independence, empowerment and meaningful lifestyles for people with a disability.

Scope of Works:

Refurbishment of an existing area while in occupation. The fitout included specialist areas for arts and crafts, sensory rooms and a kitchen training facility.

Specialist works Included:

- ▲ Design and build the fitout to AS1428.1 2009 design for access and mobility
- ▲ Installation of high visibility anti slip stair nosing
- ▲ Wide door ways, passing spaces and exclusion of dead end spaces
- ▲ Specialist sensory room lighting system
- ▲ Vinyl floors with turned up wall finish
- ▲ Design and installation of an accessible kitchen training area including: side opening oven doors, draw dishwashers, multi height stainless steel benches and compliant sinks and tapware.

Challenges:

Take responsibility for the health, safety and wellbeing of the participants that Ability Options supports during the construction process. The fitout needed to comply to AS1428.1 2009.

Solution:

We are fully qualified industry leading experts in AS1428.1 2009 compliance. We prevented unauthorised access to construction areas by building secure temporary walls with access doors. All live area work was conducted out of hours.

“Apex Executive Interiors did a great job on remodelling our space. They were very professional and took on board our needs and concerns for disability awareness at all times during the fitout process.”

Queenie Tran, General Manager - Property and Assets, Ability Options.
