

Client: Bloc Technology
Location: Surry Hills, Sydney
Time Scale: 6 Weeks
Area: 280m²

Client Profile

Bloc Technology is an innovative recruitment firm specialising in IT placements.

Scope of Works

Expansion and refurbishment of the existing office fitout from 126m² to 280m².

Combine both spaces and create an imaginative contemporary workplace that captures the spirit of Bloc Technologies successful business culture.

Works Included

- ▲ Design a modern office with a contemporary look and feel that showcased the clients approach to business.
- ▲ Demolition of the intertenancy wall enlarging the total floor space to 280m².
- ▲ Design and construction of all bespoke joinery.
- ▲ Creating a boardroom with an living green feature wall and supply of high end furniture.
- ▲ Construction of all walls and doors including modifications to existing plasterboard ceilings and bulkheads.
- ▲ Air-conditioning and fire rating compliance to the relevant Australian Standards.
- ▲ Building stylish feature walls clad with beautiful time worn reclaimed timber.

Challenge

Ensuring Bloc Technology remained operational with minimal disruption to its day-to-day business.

Solution

Devise a carefully phased construction plan advising the client every step of the way. Erection of temporary acoustic isolation barriers.

“ Karl and the Apex Executive Interiors team delivered the project over and above our expectations. The fitout timeline went smoothly and there wasn't any interruption to our business operations. We're delighted with our new office. Thank you Apex. ”
